## **Application Form**

Administrative Forms (Part A) Technical Description (Part B)

(ESF and SOCPL Standard)

Version 1.0 25 February 2021

Disclaimer

This document is aimed at informing applicants for EU funding. It serves only as an example. The actual web forms and templates are provided in the Funding & Tenders Portal Submission System (and may contain certain differences). The applications (including annexes and supporting documents) must be prepared and submitted online via the Portal

#### **IMPORTANT NOTICE**

#### What is the Application Form?

The Application Form is the template for EU grants applications; it must be submitted via the EU Funding & Tenders Portal before the call deadline.

The Form consists of 2 parts:.

- Part A contains structured administrative information
- Part B is a narrative technical description of the project.

Part A is generated by the IT system. It is based on the information which you enter into the Portal Submission System screens.

Part B needs to be uploaded as PDF (+ annexes) in the Submission System. The templates to use are available there.

#### How to prepare and submit it?

The Application Form must be prepared by the consortium and submitted by a representative. Once submitted, you will receive a confirmation.

Character and page limits:

- page limit normally 70 pages (unless otherwise provided in the Call document)
- supporting documents can be provided as an annex and do not count tow ards the page limit
- minimum font size Arial 9 points
- page size: A4
- margins (top, bottom, left and right): at least 15 mm (not including headers & footers).

Please abide by the formatting rules. They are NOT a target! Keep your text as concise as possible. Do not use hyperlinks to show information that is an essential part of your application.

L If you attempt to upload an application that exceeds the specified limit, you will receive an automatic warning asking you to shorten and re-upload your application. For applications that are not shortened, the excess pages will be made invisible and thus disregarded by the evaluators.

1. Please do NOT delete any instructions in the document. The overall page limit has been raised to ensure equal treatment of all applicants.

### PROJECT SUMMARY

**Project summary** 

See Abstract (Application Form Part A).

#### 1. RELEVANCE

#### 1.1 Background and general objectives

#### Background and general objectives

Describe the background and rationale of the project.

How is the project relevant to the scope of the call? How does the project address the general objectives of the call? What is the project's contribution to the priorities of the call?

Insert text

#### 1.2 Needs analysis and specific objectives

#### Needs analysis and specific objectives

Describe how the objectives of the project are based on a sound needs analysis in line with the specific objectives of the call. What issue/challenge/gap does the project aim to address?

The objectives should be clear, measureable, realistic and achievable within the duration of the project. For each objective, define appropriate indicators for measuring achievement (including a unit of measurement, baseline value and target value).

Insert text

#### 1.3 Complementarity with other actions and innovation — European added value

#### Complementarity with other actions and innovation

Explain how the project builds on the results of past activities carried out in the field and describe its innovative aspects. Explain how the activities are complementary to other activities carried out by other organisations.

Illustrate the European dimension of the activities: trans-national dimension of the project; impact/interest for a number of EU countries; possibility to use the results in other countries, potential to develop mutual trust/cross-border cooperation among EU countries, etc.

Which countries will benefit from the project (directly and indirectly)? Where will the activities take place?

Insert text

### 2. QUALITY

#### 2.1 Concept and methodology

#### Concept and methodology

Outline the approach and methodology behind the project. Explain why they are the most suitable for achieving the project's objectives.

Insert text

#### 2.2 Consortium set-up

#### Consortium cooperation and division of roles (if applicable)

Describe the participants (Beneficiaries, Affiliated Entities and Associated Partners, if any) and explain how they will work together to implement the project. How will they bring together the necessary expertise? How will they complement each other?

In what way does each of the participants contribute to the project? Show that each has a valid role and adequate resources to fulfil that role.

**Note:** When building your consortium you should think of organisations that can help you reach objectives and solve problems.

Insert text

#### 2.3 Project teams, staff and experts

#### Project teams and staff

Describe the project teams and how they will work together to implement the project.

List the staff included in the project budget (budget category A) by function/profile (e.g. project manager, financial manager, junior/senior expert, junior/senior advisor, trainers/, operational personnel, technical personnel, administrative personnel, communication personnel etc. and describe briefly their tasks. Provide CVs of all key actors (if required).

Name and function	Organisation	Role/tasks/professional profile and expertise
3	,	

#### Outside resources (subcontracting, seconded staff etc)

If you do not have all skills/resources in-house, describe how you intend to get them (contributions of members, partner organisations, subcontracting, etc).

If there is subcontracting, please also complete the table in section 4.

Insert text

#### 2.4 Consortium management and decision-making

#### Consortium management and decision-making (if applicable)

Explain the management structures and decision-making mechanisms within the consortium. Describe how decisions will be taken and how regular and effective communication will be ensured. Describe methods to ensure planning and control.

Note: The concept (including organisational structure and decision-making mechanisms) must be adapted to the complexity and scale of the project.

Insert text

### 2.5 Project management, quality assurance and monitoring and evaluation strategy

#### Project management, quality assurance and monitoring and evaluation strategy

 $Describe the measures \ planned \ to \ ensure \ that \ the \ project \ implementation \ is \ of \ high \ quality \ and \ completed \ in \ time.$ 

Describe the methods to ensure good quality, monitoring, planning and control.

Describe the evaluation methods and indicators (quantitative and qualitative) to monitor and verify the outreach and coverage of the activities and results (including unit of measurement, baseline and target values). The indicators proposed to measure progress should be relevant, realistic and measurable.

Inserttext

#### 2.6 Cost effectiveness and financial management

**Cost effectiveness and financial management** (*n/a for prefixed Lump Sum Grants*)

Describe the measures adopted to ensure that the proposed results and objectives will be achieved in the most cost - effective way.

Indicate the arrangements adopted for the financial management of the project and, in particular, how the financial resources will be allocated and managed within the consortium.

1. Do NOT compare and justify the costs of each work package, but summarize briefly why your budget is cost effective.

Inserttext

#### 2.7 Risk management

#### Critical risks and risk management strategy

Describe critical risks, uncertainties or difficulties related to the implementation of your project, and your measures/strategy for addressing them.

Indicate for each risk (in the description) the impact and the likelihood that the risk will materialise (high, medium, low), even after taking into account the mitigating measures.

Note: Uncertainties and unexpected events occur in all organisations, even if very well-run. The risk analysis will help you to predict issues that could delay or hinder project activities. A good risk management strategy is essential for

good project ma	nagement.		
Risk No	Description	Work package No	Proposed risk-mitigation measures

#### 3. IMPACT

#### 3.1 Impact and ambition

#### Impact and ambition — Progress beyond the state-of-the-art

Define the short, medium and long-term effects of the project.

Who are the target groups? How will the target groups benefit concretely from the project and what would change for them?

Does the project aim to trigger change/innovation? If so, describe them and the degree of ambition (progress beyond the status quo/state-of-the-art).

Insert text

Impact on non-EU countries

Please specify which country(ies) benefit from the project. Why is the project important for those country(ies)? How does it improve the situation the country(ies)?

Insert text

#### Target groups and activities

For ESF+ actions, specify the type of target groups involved in the project activities (if applicable).

Type target groups:

- Migrants/refugees 1.
  - Other 3rd country citizens (not migrants) 2

  - Children Elderly people (3rd age)
  - Homeless
- Most deprived 6.
- Marginalised communities 7.
- 8. People in vulnerable situations
- Persons with disability 9.

#### 3.2 Communication, dissemination and visibility

#### Communication, dissemination and visibility of funding

Describe the communication and dissemination activities which are planned in order to promote the activities/results and maximise the impact (to whom, which format, how many, etc.). Clarify how you will reach the target groups, relevant stakeholders, policymakers and the general public and explain the choice of the dissemination channels. Describe how the visibility of EU funding will be ensured.

Insert text

## 3.3 Sustainability and continuation

Sustainability, long-term impact and continuation

Describe the follow-up of the project after the EU funding ends. How will the project impact be ensured and sustained?

What will need to be done? Which parts of the project should be continued or maintained? How will this be achieved? Which resources will be necessary to continue the project? How will the results be used?

Are there any possible synergies/complementarities with other (EU funded) activities that can build on the project results?

#### 4.2 Work packages and activities

#### **WORK PACKAGES**

This section concerns a detailed description of the project activities.

Group your activities into work packages. A work package means a major sub-division of the project. For each work package, enter an objective (expected outcome) and list the activities, milestones and deliverables that belong to it. The grouping should be logical and guided by identifiable outputs.

Projects should normally have a minimum of 2 work packages. WP1 should cover the management and coordination activities (meetings, coordination, project monitoring and evaluation, financial management, progress reports, etc) and all the activities which are cross-cutting and therefore difficult to assign to another specific work package(do not try splitting these activities across different work packages). WP2 and further WPs should be used for the other project activities. You can create as many work packages as needed by copying WP1.

For very simple projects, it is possible to use a single work package for the entire project (WP1 with the project acronym as WP name). For Operating Grants, use WP1 for 'General management and running of the organisation' and the last WP for 'Dissemination and communication'. For Lump Sum Grants, please create one work package for each lump sum component.

Work packages covering financial support to third parties (!) only allowed if authorised in the Call document) must describe the conditions for implementing the support (for grants: max amounts per third party; criteria for calculating the exact amounts, types of activity that qualify (closed list), persons/categories of persons to be supported and criteria and procedures for giving support; for prizes: eligibility and award criteria, amount of the prize and payment arrangements).

Å Enter each activity/milestone/output/outcome/deliverable only once (under one work package).

**Deliverables** are project outputs which are submitted to show project progress (any format). Refer only to major outputs. Do not include minor sub-items, internal working papers, meeting minutes, etc. Limit the number of deliverables to max 10-15 for the entire project. You may be asked to further reduce the number during grant preparation.

For deliverables such as meetings, events, seminars, trainings, workshops, webinars, conferences, etc., enter each deliverable separately and provide the following in the 'Description' field: invitation, agenda, signed presence list, target group, number of estimated participants, duration of the event, report of the event, training material package, presentations, evaluation report, feedback questionnaire.

For deliverables such as manuals, toolkits, guides, reports, leaflets, brochures, training materials etc., add in the 'Description' field: format (electronic or printed), language(s), approximate number of pages and estimated number of copies of publications (if any).

For each deliverable you will have to indicate a due month by when you commit to upload it in the Portal. The due month of the deliverable cannot be outside the duration of the work package and must be in line with the timeline provided below. Month 1 marks the start of the project and all deadlines should be related to this starting date.
